ABOUT US

Bos Cleaning & Finishing Products

HISTORY

Bos Cleaning & Finishing Products was established in 1984. Founded by Dick Bos, this family company started once as a manufacturer of polishing products for the metal industry. Today, Bos Cleaning & Finishing Products has grown out to be an innovative, medium-sized industrial company that supplies cleaning and finishing products all over the world.

The company is located in Loosdrecht, in the heart of the Netherlands. Recently, we have expanded our property and production facilities to meet the growing demands for our products, which covers the complete range for the cleaning floorpad market.

Since 1 March 2012 we work under the name Bos Cleaning & Finishing Products to give more focus on our delivery program. Our products are supplied to various industries, including the automotive industry, the metal working industry, distributors for both industry and cleaning branch, machine manufacturers and the DIY market.

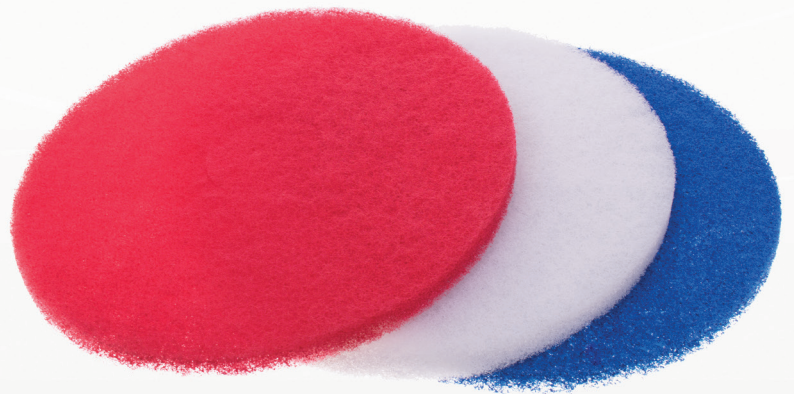

WHY CHOOSE FOR BOS?

From the very start we are focused on supplying great quality and service. For every problem that you may encounter we will do our utmost best to find a suiting solution. With our complete product range we offer you a price and quality ratio that fits every demand!

PRIVATE LABEL

Bos Cleaning & Finishing Products offers, on request, all of the products under private label. We already provide this for a large scale of our customers. Please contact us for the possibilities.

CONVENTIONAL FLOORPADS

Stripping Pads

Maroon Chemical Free Stripping Pad

Specifically designed to remove floor finish with only water. Aggressive chemicals are no longer required!

Hi-Pro Emerald Stripping Pad

Extra abrasive stripping pad. Tear resistant and long wearing. An open mesh construction allows solutions to flow through without build-up.

Black Stripping Pad

Heavy-duty wet stripping pad. With an aggressive texture, this pad is optimal for removing wax, dirt and any finish.

Brown Stripping Pad

Used for both wet and dry stripping applications. This pad will quickly remove wax, dirt and old finishes, leaving the surface ready for immediate recoating.

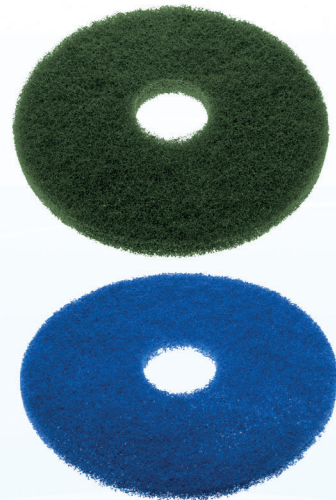

Scrubbing Pads

Green Scrubbing Pad

Heavy-duty scrubbing pad intended for wet scrubbing and light stripping. Designed for cleaning heavily soiled areas.

Blue Scrubbing Pad

Wet scrubbing and medium-duty spray cleaning pad. Capable of removing heavy dirt and scuff marks from most floor surfaces.

Buffing & Polishing Pads

Red Buffing Pad

This pad restores glossy finishes while removing the scuff marks and dirt associated with medium traffic areas. This pad can be used for both dry or spray buffing to produce a sparkling shine.

Tan Buffing Pad

Maintenance pad used for light cleaning and buffing. Removes light scuff marks and dirt while producing a high gloss finish.

White Polishing Pad

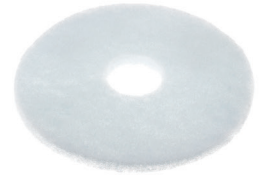

Extra-fine polishing pad. For use on clean and dry floors. A fine water mist can be used to produce a high gloss wet look. Also ideal for polishing wooden floors.

CONVENTIONAL FLOORPADS

Ultra High Speed Pads

UHS Light Blue

This UHS pad removes black marks without removing a floor's finish. This pad is great for laying a high gloss finish in heavy traffic areas and will typically allow more time between recoating.

UHS Champagne

Designed to stand up to the high heat and strength required with propane burnishing. This UHS pad yields very, very high-gloss finishes. Best used on soft to medium surfaces.

UHS Natural Hair

A controlled blend of polyester and natural hair fibres, this versatile UHS pad takes advantage of the lubricating effects of natural hair. Yielding a "wet-look" finish while providing strength and durability.

UHS Natural Grey

An aggressive burnishing pad. These pads offer the ideal combination of natural hair and synthetic fibre to provide a "wet-look" shine.

Thinline Pads

Black Stripping

Heavy-duty stripping pad. Designed for removing wax, dirt and any finish.

Green Scrubbing

Heavy-duty scrubbing pad intended for wet scrubbing and light stripping.

Red Buffing

This pad removes the scuff marks and dirt associated with medium traffic areas.

Tan Buffing

Maintenance pad used for light cleaning and buffing.

White Polishing

Extra-fine polishing pad. For use on clean, dry floors. Also ideal for polishing wooden floors.

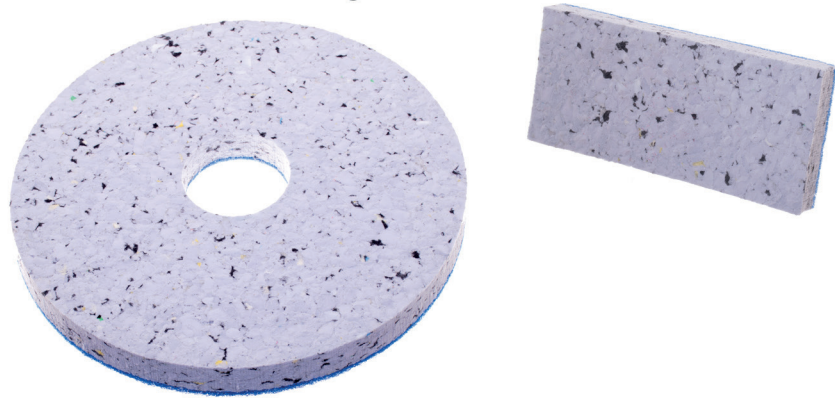

MELAMINE FLOORPADS

XTREME Melamine Floorpads

Melamine floorpad made from recycled fibres. This extra dense quality has a stunning lifetime, due to the chipped melamine and water-resistant resin.

No chemicals required! Use only with water.
Easily removes black marks, restores and shines to a high level.

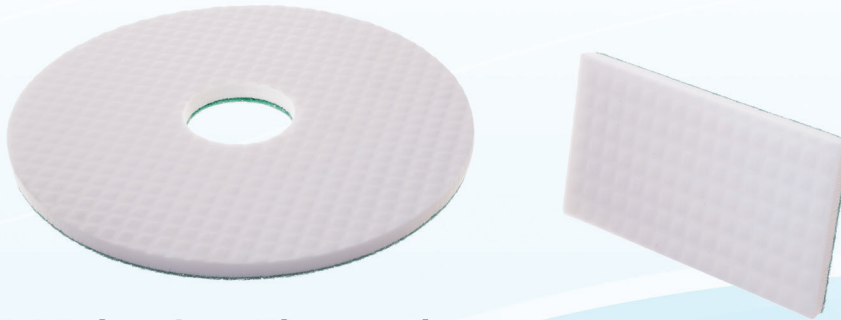

European Patent pending!

PREMIUM Melamine Floorpads

Heat compressed melamine floorpad. A double dense quality with increased lifetime and superb cleaning action.

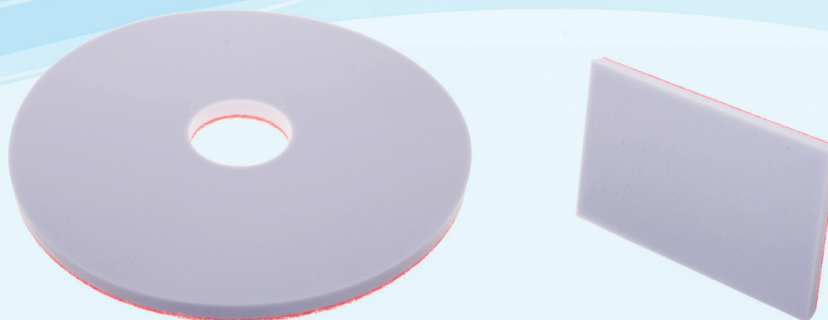

No chemicals required! Use only with water.
Easily removes black marks, restores and shines to a high level.

STANDARD Melamine Floorpads

Standard quality and price friendly melamine pad. Excellent cleaning performance.

No chemicals required! Use only with water.
Easily removes black marks, restores and shines to a high level.

DIAMOND FERRZON FLOORPADS

AGGRESSIVE - Black - 100

Specifically designed to remove floor finish with only water. Aggressive chemicals are no longer required!

Warning: for restoration purposes only!

VERY COARSE - Orange - 200

Extra abrasive stripping pad. Tear resistant and long wearing. An open mesh construction allows solutions to flow through without build-up.

Warning: for restoration purposes only!

COARSE PLUS - Brown - 350

Heavy-duty wet stripping pad. With an aggressive texture this pad is optimal for removing wax, dirt and any finish.

COARSE - Red - 400

The coarse pad is mainly used for heavy-duty surface renovation. Intended for deep cleaning and as a base for the rest of the process.

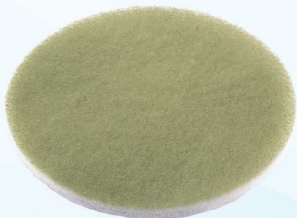

MEDIUM - Blue - 800

The medium pad can be used for deep cleaning and produces an economical light reflective finish. This pad is most popular in large industrial and commercial applications.

FINE - Yellow - 1500

This fine pad is intended for both daily polishing and cleaning, producing a clear reflective shine.

VERY FINE - Green - 3000

This very fine pad, used wet or dry, will finish off the four step process leaving a polish to your floor with the highest shine available. Daily use will maintain and improve the polish.

ULTRA FINE - Cream - 8000

Maintenance pad used for light cleaning and buffing. Removes light scuff marks and dirt while producing a super high gloss finish.

MICROFIBRE FLOORPADS

Grey Striped Microfibre Floorpad

This pad, designed with grey scrubbing stripes, is for intense use. Recommended for depth cleaning of stone- and tile floors. Ideally suitable for non-slipping floors.

Blue Striped Microfibre Floorpad

Daily microfibre cleaning pad with blue scrub stripes for deep cleaning. Can be used wet or dry. Extends floor life or floor finish without any damage.

Blue Striped Poly Floorpad

The ultra fine poly pad with blue stripes is a versatile pad for general usage. Recommended for usage on stone- and tile floors, natural stone floors, wood and vinyl.

White Microfibre Floorpad

The combination between polyester and polyamide penetrates deep into the surface and removes dirt from the smallest pores. This white pad without scrubbing stripes is recommended for usage on delicate floors.

Green Poly Floorpad

The high quality polyester wool fibres penetrate deep into the floor surface. Designed for high gloss polishing of stone- and tile floors at speeds up to 1500 RPM. This polishing and burnishing pad will not damage the finish on uneven floors.

White Wool Floorpad

Extra dense wool floorpad ideally used for oiling and high gloss finishing of wooden floors.

CARPET BONNETPADS

Heavy-Duty Carpet Bonnetpad

This heavy-duty carpet bonnetpad is strong and robust and is constructed of both microfibre material and black monofilament agitation strips. This combination provides a greater area of agitating material as opposed to standard heavy-duty pads. Making this pad suitable for cleaning even the most soiled carpets and restoring the carpet fibres at the same time.

Medium-Duty Carpet Bonnetpad

This versatile pad designed for cleaning carpets and upholstery is made of looped white polyamide with green scrubbing stripes. The polyamide absorbs the dirt from the carpet very easily while the scrubbing stripes loosens up the dirt first. Ideal for aggressive soil lessening and dirt trapping to produce a cleaner surface area.

*Worldwide our number 1
selling bonnetpad!*

Light-Duty Carpet Bonnetpad

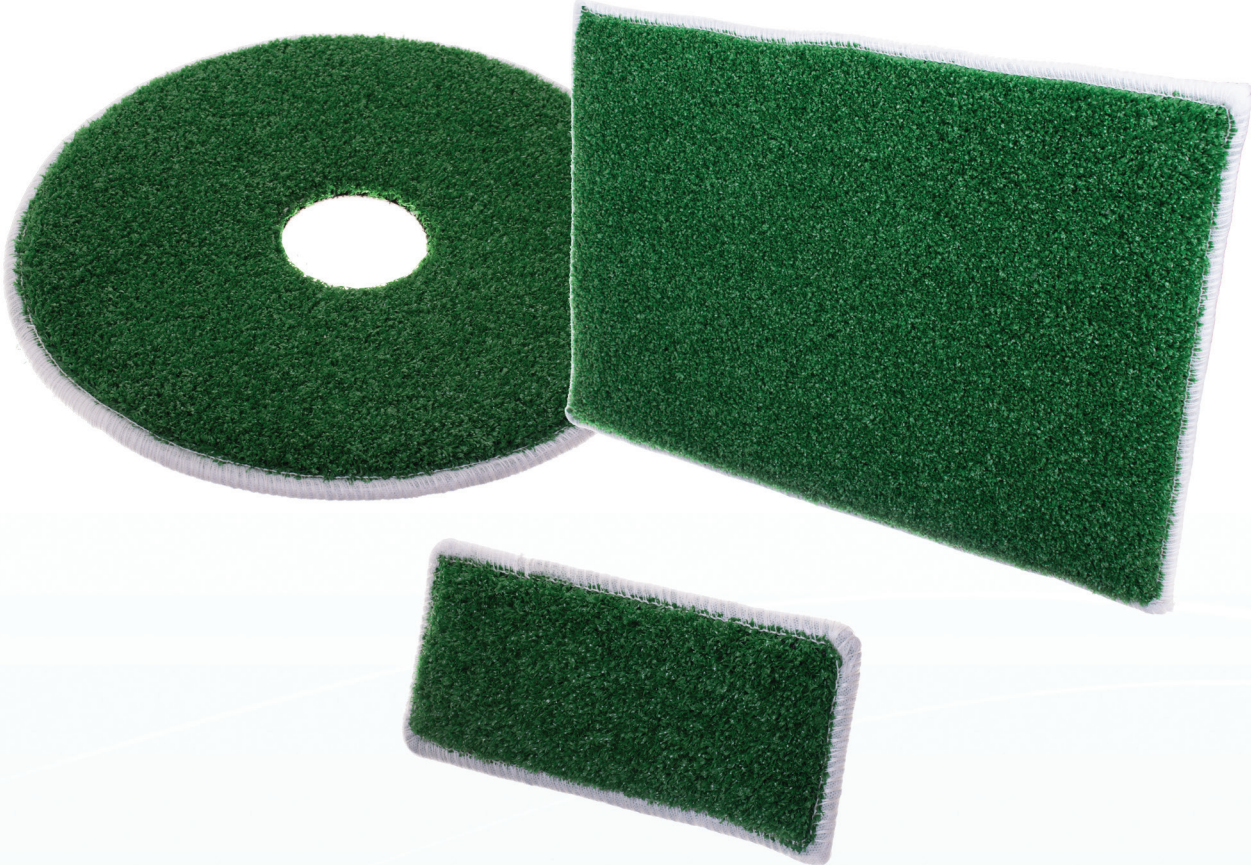

A light-duty pad for cleaning carpets and upholstery. Made with a thick layer of looped white polyamide. The polyamide absorbs the dirt from the carpet very easily: therefore ideally for use on carpets in high traffic areas where drying time needs to be quick.

BRUSHPADS

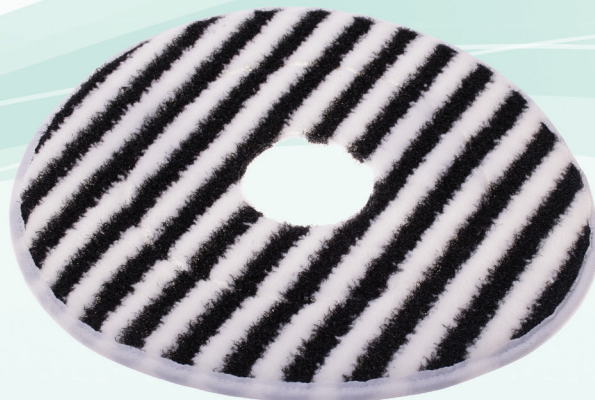

Green Power Brush Pads

A brush pad suited for scrubbing grouted tile floors, concrete floors and poured non-slip floors. The coarse polyamide fibres works as well as a brush, but for a fraction of the cost. The thick white backing is flexible for optimum use and to ensure the brush material reaches all uneven surfaces.

Black Striped Microfibre Brush Pads

A combination of aggressive polyester fibres and microfibre. This pad has been specially designed for deep cleaning and the cleaning of uneven surfaces, for example tile floors as well as the grouts. Thanks to the combination of the aggressive fibre and the microfibre all parts of a floor are cleaned thoroughly through.

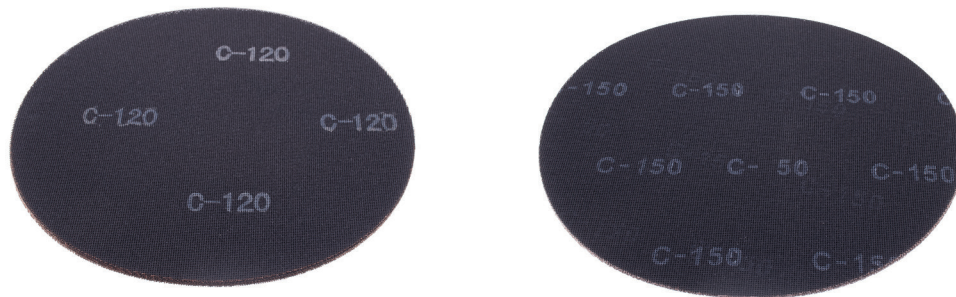

SANDSCREEN DISCS

Sandscreen Floor Discs

Abrasive material with an open net structure impregnated with S/C abrasive-grains. This structure makes sure that the material won't fill up with dust.

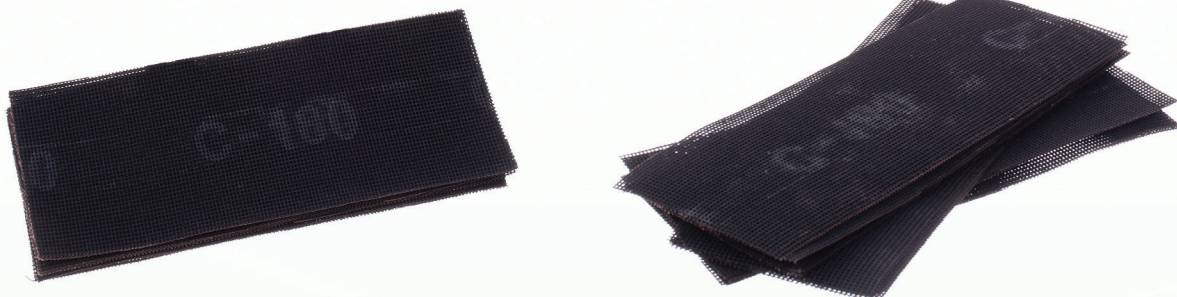

Normally used in combination with conventional floor machine for sanding worn off wooden floors.

Standard available in grids 40, 60, 80, 100, 120, 150, 180 and 220.

Sandscreen Sheets

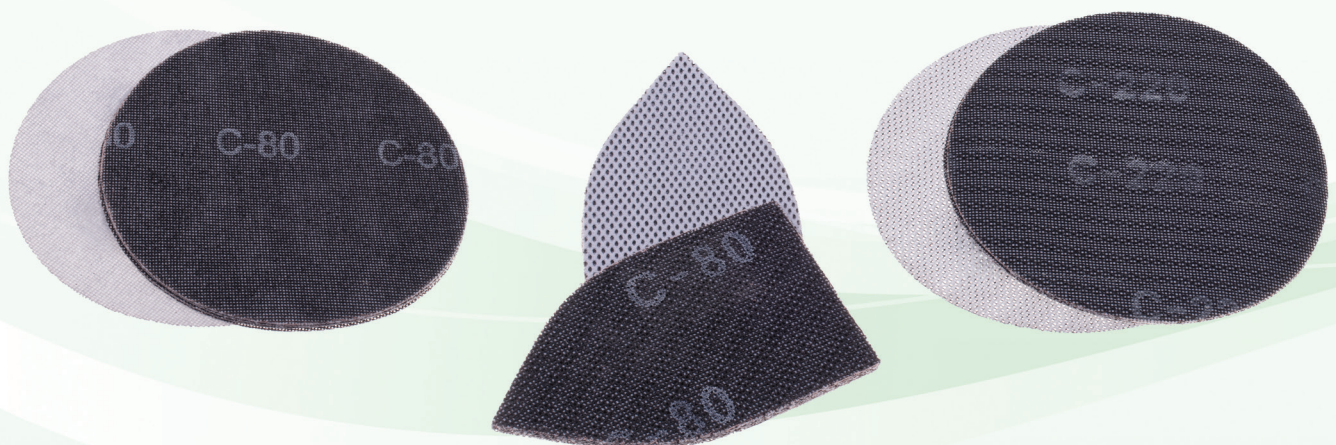

Our silicon carbide waterproof sandscreen sheets are ideally suited for floor sanding, drywall, ceramics and wet deck sanding. May be used wet or dry. Also available in an aluminium oxide quality used for griddle cleaning.

Velcro Sandscreen Discs & Sheets

Silicon carbide sandscreen discs and sheets laminated with a multihole velcro backing.

For easy fixing on a sanding machine while still giving optimal dust absorption. Ideally used for sanding plaster and wood.

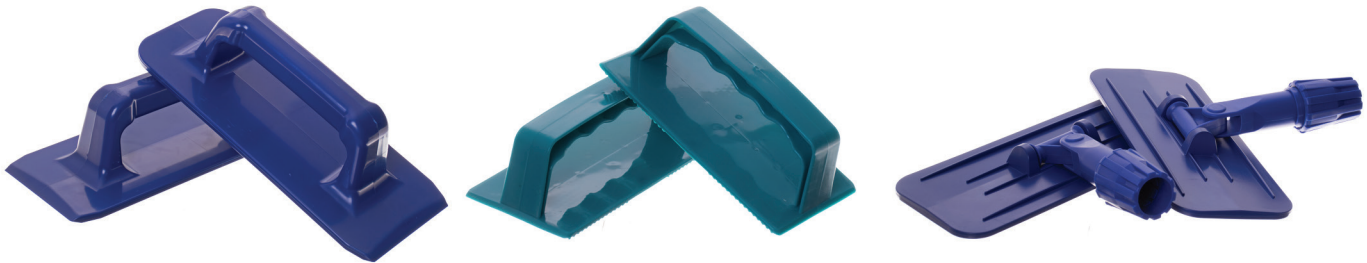

OTHER & ACCESSORIES

Holders

Plastic holders for use with utility pads.

Available as a hand holder and with a swivel socket. Also available as a hand holder for edge cleaners.

Steelwool Floorpads

Floorpad made of steelwool. Mostly used for the crystallization of marble floors.

Available in a standard or stainless steel version.

Scouring Handpads & Rolls

Non-woven abrasive scouring material, standard available in:

- Black - For extra tough cleaning
- Green - For extra tough scrubbing
- Red - For scrubbing
- White - For scratchless cleaning
